UCSF TODAY & TOMORROW

SAT. MAY 21 - FRI. JUNE 3, 1977 VOL. 2 NO. 16 UC-SAN FRANCISCO

Honors & Awards

HIDEYO MINAGI, Assoc. Prof. Radiol., SFGH: Visiting Professor at U British Columbia, Vancouver, June 6-17 . . .

NORMAN C. STAUB, Prof. Physiol., CVRI: Voted President-elect of the Microcirculatory Society and will assume office of President, April 1978.

FRANK HINMAN, JR., Clin. Prof. Urol. & Chief Urol., Children's & SFGH: Recipient of the Hugh Hampton Young Award of the American Urologic Association at its Annual Meeting in Chicago, April 27.

ANNE M. SCHMID, Ed., Dept. Ped.: Named Active Fellow of the American Medical Writers Association. Award will be conferred at their annual meeting in New York City, September 30.

E.S. SALAZAR, Asst. Dean of Students: To become Assoc. Dir. to Roberto Montoya, State Department of Health, Office of Health Professions Development.

WARREN M. GOLD, Assoc. Prof. Med. & Sr. staff member, CVRI: Elected to the board of directors of the California Lung Assoc. at the group's annual meeting in Beverly Hills, April 7-9.

News Briefs

Kenneth L. Melmon, Professor of Medicine and Pharmacology has been elected president-elect for 1978 of the American Society for Clinical Investigation. Dr. Melmon was elected to this honored position during the 69th annual meeting of the Society, this month in Washington D.C. He has been a member of the Society since 1968, and has served on the editorial board of the ASCI's publication, the *Journal of Clinical Investigation,* since 1974. Dr. Melmon is chairman of the 18-member National Joint Commission on Prescription Drug Use. The Commission began its three-year study late in 1976 to design a methodology for evaluating the effects and toxicity of prescription drugs once they are put on the market. Dr. Melmon is Chief of the Division of Clinical Pharmacology and a senior staff member of the CVRI. This means that of the major professional societies in the U.S. twelve have members of the UCSF faculty from the School of Medicine as president or president-elect. In addition to Dr. Melmon, they include Drs. Ralph O. Wallerstein, president-elect, American Society for Hematology; Oscar Lionel Frick, president, American Academy of Allergy; James Kieran, president, American Lung Association; Norman Staub, president-elect, Micro-Circulatory Society; Saul Robinson, president-elect, American Academy Pediatrics; Moses Grossman, chairman, Council of American Pediatric Society; Rees B. Rees, president-elect, American Academy of Dermatology; William Ganong, president-elect, American Physiological Society; David O. Harrington, president, American Ophthalmological Society; T.L. Phillips, president-elect, Radiation Research Society; and Eileen B. King, president, American Society of Cytology.

Over $14,000 has been raised by the School of Medicine Alumni-Faculty Association to restore and light the Toland Frescoes, an art treasure housed in a lecture hall on this campus. It is estimated that about $20,000 is needed to totally repair damage to the art. The frescoes by Polish-born artist Bernard Zakheim of Sonoma tell the history of medicine in California from native California Indian customs through medical personalities of the early West to portraits of 20th-century physicians, including several from UCSF. The Smithsonian Institution ascribes a high value to fresco art and has referred a number of artists and art historians to see this pictorial history. According to Dr. Boushey, chairman of the ad hoc Committee for Toland Frescoes, Zakheim created the original work using the ancient fresco technique - now extremely rare - by which water pigments are applied directly to untreated wet lime plaster. Other members of the committee are Drs. John V. Carbone, John B. de C.M. Saunders, Don Jewett, Leslie L. Bennett and Charles T. Carmen; and Anne M. Schmid, Frances Larragueta and Chauncey D. Leake.

Congratulations to the winners of the Transportation Day Suggestion Contest. Over 230 entries were considered by the campus Parking and Transportation Task Force, all of which reflected a genuine concern for helping the campus soften its impact on the surrounding community. First place prize, a ten-speed bicycle, went to Jean McNair in the Library for her suggestion that an economic incentive be provided commuters to drive smaller cars with more passengers by charging such autos lower parking rates. Jane Slaga in Biochemistry won a pair of jogging shoes with her proposal that the campus Business Services Office publish a document that identifies and explains all alternative transit systems to and from UCSF. Such a document would increase awareness of the problem among staff and solutions to it. MUNI Fast Passes went to James Fonduex, Laurel Eber, Margaret Hall, Carolyn Howard and Jo Wheeler. Their suggestions included establishing various shuttle services, "walking pools," an essay contest among City school children to promote hearing their suggestions and placement of MUNI bus schedules at UCSF bus stops to let people know how long their wait will be.

Three researchers from the Cardiovascular Research Institute presented papers at the joint annual meetings of the American Lung Association and the American Thoracic Society earlier this month in S.F. Brian Davis, Postgraduate Research Physiologist, working in the laboratory of Jay Nadel, Professor of Medicine, reported that his group, employing a diuretic commonly used to treat heart and kidney patients, has located a mechanism that can control the amount of sticky mucus that accumulates in diseased lungs. The mechanism, called the chloride ion pump, has never been associated with the membranes along the air passages. The use of drugs to locate and manipulate the chloride pump may help researchers determine whether the malfunctioning of the pump is a fundamental defect of patients with cystic fibrosis or asthma. Warren M. Gold, Associate Professor of Medicine, reported that he and his associates, working with dogs that already have asthma or allergies, have found they can measure the chemicals believed to modulate the complex allergic reactions in animals. So far, these chemical modulators have only been studied in isolated tissue. The chemicals are known as the cyclic nucleotides and are thought to play an important role as "second

(continued on back page)

21
Saturday

Orthopaedic Grand Rounds. Kaiser Permanente Medical Center. First fl., Conference Rm. 8-9 a.m.

Women & Health Care

Symposium on women as providers and consumers of health care. Sponsored by Program for Women in Health Sciences. Programs include panel discussions on "Women's Careers in Health Professions," "Women's Use of the Medical Care System," "Reproductive Research," and "Communicating Research and Policy to the Public." For further information call x2894. May 20 & 21. Cole Hall. 9 a.m.-4 p.m.

Speakers include: Suzanne Arms, author of *A Season to be Born*; Isabel Duron, anchor woman for Channel 2; Ruthe Stein, S.F. Chronicle; Sadja Goldsmith, Dept. Ob/Gyn, involved in early contraceptive research; Lydia San Filippo, Coalition for the Medical Rights of Women and a leader in sterilization abuse hearings; and other well-recognized professionals in the fields of nursing, bioethics, genetic counseling, hospital administration, medical anthropology and public health.

For further information call x2894. May 20 & 21. Cole Hall. 9 a.m.-4 p.m.

Mental Health Principles and Deaf Children

A weekend workshop. For parents - May 21. For professionals - June 4-5. Sponsored by Mental Health Services for the Deaf, Langley Porter, and Dept. Psychiatry. For registration information call x2894, program information 731-9150.

23
Monday

Practical Philosophy - The Esthetics: *The Arts, the Humanities, and the Technologies.* Chauncey D. Leake, Sr. Lec., Hist. Hlth. Sci. & Pharmacol. 664 S. Noon.

C.A.L. Lecture: *The Malpractice Crisis: What you Can Look Forward to in Practice.* Dan Tennenhouse, Schl. Med. & Schl. Law, Hastings. MU Lounge. Noon. Free.*

Division of Urology Meetings: *Reflux in the Long Term.* Richards Lyon, Clin. Prof. Urol.; *Vesicoureteral Reflux in Proper Perspective.* Panos P. Kelalis, Prof. & Head Sect. Ped. Urol., Mayo Clinic, Minn. (John Walter Schulte Visiting Prof.) 302 HSW. 3:30-6 p.m.

Department of Pharmaceutical Chemistry & Cancer Research Inst. Seminar: *Recent Concepts on the Mechanism of Action of Methotrexate.* David Goldman, Prof. Med., Dept. Med., Med. Col. Va, Va Commonwealth U. 301 HSW. 4 p.m.

CVRI Seminars & Conferences. *Fluorescence Spectroscopic Studies of the Conformation and Dynamics of Biological Membranes.* Juan Yguerabide, Assoc. Prof. Biol., UCSD. 1364 S. 4 p.m.

Running/Dialogue Lecture: *Cardiovascular and Respiratrory Changes During Exercise.* Cedric R. Bainton, Assoc. Prof., Anes., Rsd.; Lec. Physiol. 300 HSW. 5:30 p.m.

Cancer Treatment Today

S.F. Regional Tumor Foundation is presenting an informal free public meeting. Topic will be "Cancer Treatment - Where are We Today?" presented by Stephen K. Carter, Dir., Northern Calif. Cancer Prog.; Prof. Med., Stanford U and UCSF. First Unitarian Center, 1187 Franklin St., S.F. 8 p.m. June 7.

Funding News

DEADLINES

American Heart Association. Postdoctoral fellowship for independent research in the broad field of cardiovascular function and disease. British-American Research Fellowships to investigators who wish to undertake additional training in an institution in Great Britain. July 1.

FOUNDATION OPPORTUNITIES

National Society for the Prevention of Blindness. Grants-in-Aid for Research in Ophthalmology or in the Visual Sciences.

Foundation for Microbiology. Grants for lectureships, meetings, courses, usual publications and prizes in the field of Microbiology.

Research Corporation. Brown-Hazen grants to support research projects and the training of researchers in mycology.

DOUBLE YOUR DOLLARS

Business Corporations contribute support to Universities in many ways, but their matching gift program can be a significant source of annual support for UCSF. If an individual donor, who works for one of the participating companies with a matching gift program, contributes to UCSF, we can arrange to have a second gift sent to your department, courtesy of the company. For example, the Exxon Education Foundation will match an employee gift 3-for-1, up to $3,000 in any calendar year. A complete list of participating companies may be obtained by contacting x4394.

24
Tuesday

Pulmonary Grand Rounds. 1319 M. 8 a.m.

Ob/Gyn Grand Rounds: *Current Concepts in the Use of Oral Contraceptives, Part I & II.* Abe Mickal, Prof. & Chrmn. Ob/Gyn, Louisiana State U. 1364 S. 9-11 a.m.

Department of Psychiatry Grand Rounds: *"Working Through" of Patients' Suicides by Four Therapists in Training.* Case discussion by Edward M. Weinshel, Dir. Resident Training, Mt. Zion; David Rosen, Asst. Prof. Rsd., Psychr. 664 S. 11 a.m.-12:30 p.m.

Pharmacology Dept. Seminar: *Studies on the Mechanism of Killing by Colicin E2.* Terry Nicksic, Postdoc. Trainee, Dept. Pharmacol. 1269 HSW. Noon.

Obstetrics Pediatrics and Anesthesiology Conference. Robert Creasy, Assoc. Prof., Ob/Gyn; Joseph Kitterman Assoc. Prof. Rsd. Ped. & CVRI; Sol Schnider, Prof. Anes., Ob/Gyn. 1486 M. Noon.

International Folkdancing. Led by Dean Linscott. Everyone welcome. No partner needed. MU Gym. Noon-1:30 p.m. Also held in MU Lounge, 7:30-9:30 p.m. Free.*

Lecture/Film Series on Aging: *Peege.* A sensitive film on the elderly. 301 HSW. Noon. Free.*

Public Tour of the Campus. For further information call x4394. Begins in the lobby of Medical Sciences. 1-2:30 p.m. Free.*

Hospitals and Clinics New Employee Follow-up Orientation Program. Refreshments, movie, tour of hospitals facilities. Discussion of employee roles in the health care system. For further information call x3022. 1319 M. 1-4 p.m.

Division of Urology Meetings: *Management of Wilms Tumor.* Joseph Kurshner, Assoc. Clin. Prof. Ped. *Genitourinary Tumors in Children.* Panos P. Kelalis, Prof. & Head Sect. Ped. Urol., Mayo Clinic, Minn. (John Walter Schulte Visiting Prof.) 301 HSW. 3:30-6 p.m.

Department of Anatomy Seminar: *Innervation of SIF Cells of the Superior Cervical and Nodose Ganglia and Chief Cells of the Carotid Body of Rats: A Serial Ultrathin Section Analysis.* Hisatake Kondo, Tohoku U Schol. Med., Sendai, Japan. 1309 HSE. 4 p.m.

Hoofbeats on Parnassus

Senior medical students will present their class play, Hoofbeats on Parnassus, Wednesday, May 25. Tickets are $1.50 Students & Housestaff; $3 General and can be purchased at 245 S. Price includes wine and cheese social hour, MU Cafeteria 7 p.m., and the play, MU Gym 8 p.m. Free parking is available for students in MU Garage.

25
Wednesday

Division of Urology Grand Rounds. 14th fl. Moffitt. 8 a.m.

Dermatology Grand Rounds: *Dermatological Clinical Potpourri.* Alex Hoke, Assoc. Clin. Prof. Derm. 326 A. 8:10 a.m.

Dept. Pediatrics, Chief of Service Rounds. 666 M. 9 a.m.

Medical Grand Rounds: *A Reappraisal of Exercise Testing.* David Bristow, Prof. Med. & Chief Cardiol. VA. *Title to be announced.* Clarence H. Mielky; James Day, Prof. Med. & Vchrmn. Thrombosis Inst., Temple. Cole Hall. 10:30 a.m.-noon.

Neuroendocrine Seminar: *Androstene-Dione Induced LH Secretion: A New Concept in Neuroendocrine Regulation.* Pentti K. Siiteri, Prof. Ob/Gyn. 758 S. 10-11 a.m.

Department of Anatomy Seminars: *The Ultrastructure of the Sea Urchin Egg "Surface Membrane Complex".* Parris Kidd, Postdoc. Fellow, Anat. & CVRI. 1309 HSE. Noon.

Brown Bag Tours: *Health Psychology.* For further information call x4394. 664 S. Noon. Free.*

Division of Urology Meetings: *Feasibility of Controlled Micturition.* Richard Schmidt, Res. Fellow, Urol.; *Obstruction to the Lower Urinary Tract.* Panos P. Kelalis, Prof. & Head, Sect. Ped. Urol., Mayo Clinic, Minn. (John Walter Schulte Visiting Prof.) 302 HSW. 3:30-6 p.m.

Neurobiology Seminar: *Redistribution of Cell Calcium During Stimulus-Secretion Coupling as Determined by a Flourescent Probe.* Douglas Chandler, Grad. Student, Dept. Physiol. 738 S. 2 p.m.

Child Neurology Conference. 666 M. 4:30 p.m.

Department of Anatomy Seminars: *An Immunocytochemical Approach to the Study of GABAergic Neurons.* James Vaughn, Div. Neurosci., City of Hope, Duarte, Ca. 1309 HSW. 4.p.m.

Radiology Grand Rounds: *Correlative Conference on Bone Imaging.* Harry K. Genant, Assoc. Prof. Radiol.; Robert S. Hattner, Assoc. Prof. Rsd., Radiol. 303 HSW. 5:30 p.m.

Stoeckenius Lecture May 25

The San Francisco Division of the Academic Senate takes pleasure in announcing the Twentieth Annual Faculty Research Lecture, "Structure and Function of a Light-Driven Ion Pump" by Walther Stoeckenius, Professor of Cell Biology, Biochemistry/Biophysics & CVRI. Dr. Stoeckenius and his colleagues have been studying a purple bacterial membrane pigment structurally similar to the pigment of the rod cells of the animal eye. In these studies they discovered the only known system, outside of chlorophyll based photosynthesis, in which cells use light energy for energy production. 303 HSW. 3 p.m.

26 Thursday

Pediatric Grand Rounds: *Enuresis.* D. Stewart Rowe, Asst. Prof. Ped. *School Phobia: Primary Care Management.* Lucy Crain, Asst. Prof., Ped.; Assoc. Dir. Fam. Care Prog. 664 S. 8:30 a.m.

Neurology Grand Rounds. 664 S. 11:10 a.m.-12:15 p.m.

UCSF Editors Meeting. Mohandas Narva, Asst. Res. Biochem. & Res. Assoc. CRI; Michael A. Friedman, Asst. Prof. Med., Res. Assoc. CRI to talk on what their expectations of editors are. 1292 M. Noon.

Division of Urology Meetings: *Adrenal Hyperfunction & Neoplasia.* James Palleschi, Chief Rsd., Urol. *Diversion and Undiversion.* Panos P. Kelalis, Prof. & Head, Sect. Ped. Urol., Mayo Clinic, Minn. (John Walter Schulte Visiting Prof.) 1364 S. 3:30-6 p.m.

27 Friday

Coordinated Cleft Palate Panel of the Center for Craniofacial Anomalies. 310 C. 9 a.m.-noon.

Clinical Conference of the Child and Adolescent Service: *A Family Study of Siblings with Emotional Pediatric and Learning Problems.* Presented by Children's Service Staff; Douglas Anderson, Rsd. Psychr., LPI; Robert Fisher, Rsd., Psychr., LPI. 1364 S. 9:30-11 a.m.

Department of Pharmaceutical Chemistry Seminar: *Flavin Catalysis of Dehydrogenation and Oxygen Insertion.* Thomas C. Bruice, Dept. Chem., UCSB. 664 S. 11 a.m.

Pharmacology Dept. Seminar: *Regulation of Acetylcholine Synthesis.* Jean Rossier, Salk Inst., La Jolla, Ca. 1269 HSW. Noon.

Neuroendocrine Reproductive Biology Seminar: *The Role of Androgen on Sexual Behavior in Rats and Man.* Julian Davidson, Dept. Physiol., Stanford U. Sponsored by Ob/Gyn. 2145 S. Noon.

C.A.L. Lecture: *Nutrition and Health: Divergent Perspectives.* Jeff Reinhardt, former Head, Microbiol. Immunol. Res. Lab., Letterman; Michael Gerber. MU Lounge. Noon. Free.*

Division of Urology Meetings: *Hereditary Renal Disease, Cystic Conditions.* Donald Potter, Assoc. Prof. Rsd., Ped. *Ureteropelvic Obstruction in Children.* Panos P. Kelalis, Prof. & Head, Sect. Ped. Urol., Mayo Clinic, Minn. (John Walter Schulte Visiting Prof.) 301 HSW. 3:30-6 p.m.

28 Saturday

Urology Grand Rounds: *Deaths and Complications.* Emil Tanagho, Prof. & Chrmn. Urol., Prof. Surg. *Hypospadias and Related Diseases.* Panos P. Kelalis, Prof. & Head, Sect. Ped. Urol, Mayo Clinic, Minn. (John Walter Schulte Visiting Prof.) 300 HSW. 8:30-11 a.m.

31 Tuesday

Pulmonary Grand Rounds. 1319 M. 8 a.m.

Ob/Gyn Grand Rounds: *Newer Aspects of Management of Cervical Cancer.* Howard W. Jones, III, Asst. Prof. Ob/Gyn. 1364 S. 9 a.m.

Obstetrics, Pediatrics and Anesthesiology Conference. Robert Creasy, Assoc. Prof., Ob/Gyn; Joseph Kitterman, Assoc. Prof. Rsd. Ped. & CVRI; Sol Schnider, Prof. Anes., Ob/Gyn. 1486 M. Noon.

Department of Psychiatry Grand Rounds: *Psychotherapy with a Seriously Disturbed Patient.* Case presentation by Bruce Africa, Rsd., Psychr. 11 a.m.-12:30 p.m.

Noon Film Series: *Five Women, Five Births.* Sensitive document of women during birth. Cole Hall. Noon. Free.*

International Folkdancing. Led by Dean Linscott. Everyone welcome. No partner needed. MU Gym. Noon-1:30 p.m. Also held in MU Lounge. 7:30-9:30 p.m. Free..*

Pharmacology Dept. Seminar: *Hormonal Involvement in Opiate Actions.* John Holady, Div. Neuropsychr., Walter Reed Army Med. Cntr., Wash., D.C. 1269 HSW. Noon.

Public Tour of the Campus. For further information call x4394. Begins in the lobby of Medical Sciences. 1-2:30 p.m. Free.*

Hospitals and Clinics New Employee Orientation. Refreshments, exhibits, slide presentation, guide to entering the UCSF system. Veteran employees are welcome to attend. For further information call x3022. Women's Rsd. Lounge, MU. 1-3 p.m.

Dept. Oral Medicine and Hospital Dentistry Seminar: *Mechanisms in Dilantin-Induced Gingival Hyperplasia.* Thomas M. Hassell, Dept. Path., U Washington, Schl. Med. 646 HSW. 5 p.m.

*—open to public.

1 Wednesday

Division of Urology Grand Rounds. 14th fl. Moffitt. 8 a.m.

Dermatology Grand Rounds: *Predisposition to Atopy.* J. Hobbs, London, Tourney Hall, Letterman. 8:10 a.m.

Dept. Pediatrics, Chief of Service Rounds. 666 M. 9 a.m.

Neuroendocrine Seminar: *Control of Pituitary-Ovarian Function by Brain Catecholamines and LH-RH.* C.H. Sawyer, Prof. Anat., UCLA. 758 S. 10-11 a.m.

Medical Grand Rounds. Cole Hall. 10:30 a.m.-Noon.

C.A.L. Lecture: Nutrition and Health: Divergent Perspectives. Thomas H. Jukes, former Dir. Nutrition & Physiol. Res.,; Dir., Biochem., Lederle Lab. 300 HSW. Noon. Free.*

Brown Bag Tours: *Tropical Diseases Lab.* For further information call x4394. 664 S. Noon. Free.*

Pharmacology Dept. Seminar: *Functional Role of Octopamine in Invertebrates.* Peter Evans, Cambridge U, England. 1269 HSW. Noon.

Neurobiology Seminar: *Organization of the Rabbit Visual System: The "Frog with Fur" Revisited.* Amy Schick Kelly, Postdoc. Fellow, Dept. Neurol., Stanford Med. Schl. 758 S. 4 p.m.

Child Neurology Conference. 666 M. 4:30 p.m.

Radiology Grand Rounds: *Current Approach to the Evaluation of Jaundice.* Roy Filly, Asst. Prof. Radiol., Chief Sect. Ultrasound; Henry I. Goldberg, Assoc. Prof. Radiol.; Albert A. Moss, Assoc. Prof. Radiol.; Robert K. Ockner, Assoc. Prof. Radiol. 303 HSW. 5:30 p.m.

2 Thursday

Pediatric Grand Rounds: *Medical Consent.* Robert Mnookin, Prof. Law, UC Schl. Law, Berkeley. *Iatrogenic Problems in Children.* Boyd Stevens, Ch. Med. Exam, S.F. 664 S. 8:30 a.m.

Neurology Grand Rounds: *Botulism.* Bruce Berg, Assoc. Prof. Neurol.; Dir., Ped. Neuro.; A.J. Harris; J.B. Pickett, Asst. Prof. Neurol. 664 S. 11:10 a.m.-12:15 p.m.

Lecture/Film Series on Aging. Presented by a local senior citizen. 301 HSW. Noon. Free.*

Chancellor's Advisory Committee on the Status of Women. 118 S. 12:30-2 p.m.

3 Friday

Clinical Conference of the Child and Adolescent Service. 1364 S. 9:30-11 a.m.

Department of Pharmaceutical Chemistry Seminar: *NMR Studies of Structural Changes in Allosteric Hemoglobin.* G.N. La Mar, Dept. Chem., UCD. 664 S. 11 a.m.

Reproductive Biology Seminar: *Steroid Receptors in Human Mammary Tumors.* Phil Hoffman, Dept. Ob/Gyn. 214 S. Noon.

C.A.L. Lecture: *Shamanism: Healing and Reintegration to the Social Order.* Margaret Lock, Dept. Med. Anthro. MU Lounge. Noon. Free.*

Cole Hall Cinema: *Shampoo.* $.75 Children under 14; $1.25 UCSF Students, MU Members, Senior Citizens; $1.50 UCSF Employees, other Students; $1.75 General. Cole Hall. 7 & 9 p.m.

Extended Programs in Medical Education

For registration information call x2483. For program information call x4251.

Psychosocial Care of the Dying Patient. Presented with the Cancer Research Institute. Purpose is to suggest for physicians in clinical practice an effective model for dealing with the psychological issues surrounding terminality. June 2-4.

Nutritional Care of the Hospitalized Patient. Presented with the Department of Surgery. Clinically oriented and designed to provide a comprehensive orientation to nutritional assessment and care of hospitalized patients. June 9-11.

Practical Topics in Pediatric Gastroenterology. Presented with the Division of Gastroenterology and Department of Pediatrics. Three-day series of presentations aimed at family practitioners, pediatricians and gastroenterologists. June 22-24.

Postgraduate Course and Workshop in Dermatomycology. Presented with the Department of Dermatology. Offered for dermatologists, clinical pathologists, medical mycologists and other persons interested in the current status of medical mycology. June 24-26.

messengers" in carrying information to the cells to regulate function of their various parts. An ability to manipulate these chemicals in an allergic dog may lead to more specific methods for treating allergies or asthma in humans, according to Dr. Gold. Norman C. Staub, Professor of Physiology, and colleagues have found that a method used to facilitate breathing of patients whose lungs are clogged with excess fluid does not actually remove the fluid as previously thought. Continuous Positive Pressure Breathing (CPPB), as this widely used technique is called, has many important benefits, especially in critical care medicine, but pushing water out of the lungs is not one of them, reported Dr. Staub.

SFGH Briefs

Collaborating in a Disaster Drill, Saturday, May 21 from 7:30 to 11:30 a.m. will be the administrative and medical staff of SFGH Medical Center, the City Ambulance Service, Central Emergency Hospital, the Mayor's Office of Emergency Services, and the San Francisco Fire Department. The mock disaster, involving an overturned gasoline truck, will take place in United Nations Plaza, Civic Center. "Victims" portrayed by students from the Community College Skills Center, will be triaged to Central Emergency Hospital and SFGH. Leo T. Walsh, Assistant Administrator, SFGH is coordinating the drill.

Deadline for the next issue of **Today/Tomorrow** which will cover the events from June 4-17 will be Tues., May 24, 11 a.m. Please send your copy to Allen Balderson, News Services Department, 1475 4th Ave.
